Product Summary

- Dual USB ports - charge two devices simultaneously - Backup Power on the go - Up to 5x full charge for most phones

Product Description

The Dual USB power bank from V7 with 11000mAh capacity is capable of charging most phones up to 5 times. The 2.1A USB port has enough juice to power up the latest iPads and Tablets, and the 1.0A port is perfect for charging up your smartphone - and best of all, you can charge them both at the same time. Four LED indicator lights show you the power level and charging status so you'll never need to guess how much power you have left, or how much it's charged, plus it has a built-in super bright LED flashlight for added convenience. The powerbank also features built-in over-charge and short-circuit protection, so you can rest assured your devices are protected. Make sure you have power for your devices whenever you need it most with this powerhouse powerbank from V7.

Features

Key Features:

Dual USB ports (2.1A and 1A) allow for simultaneous charging of your iPad, iPhone, Android, and more. Ideal charger for travel, hotel, home, beach, pool side, camping, party wherever you need emergency backup power for your tablet and or smartphon

Up to 5 full charges for most phones and up to 1.25 charges for most tablets. No more worrying about phone or tablet losing power on the go.

Built-in LED flashlight. Great feature for finding key-hole when you return home in the dark, or finding your dropped item in the movie theater.

Over-charge protection, Built-in short circuit protection helps protects your investment with peace of mind. 4-Stage LED charge indicator allows you to monitor power consumption and balance so you are always in the know for how much power is remaining
