Product Description

Introducing the dLAN 1200+ WiFi ac Add-On adapter from devolo. This is the latest Powerline gigabit generation. Integrated with WiFi ac for the first time-the most innovative WiFi standard with the best performance. Now mobile devices such as smartphones, tablets and laptops can take advantage of the full bandwidth of an Internet connection. Two Gigabit LAN ports are available for additional terminal devices. The integrated electrical socket with child-safety features and included mains filter ensures that no power socket is lost. Both data transmission over electrical wiring (at speeds up to 1.2 Gbps thanks to MIMO technology) and wireless communication using WiFi ac (simultaneously at 2.4 and 5 GHz) meet the latest state-of-the-art standards. dLAN 1200+ WiFi ac-WiFi anywhere. Faster and easier than ever before.
